

ASSEMBLY INSTRUCTION

BRIGHAM EXTENSION

ROWICO

H O M E

All form av vätska ska omedelbart torkas bort med en torr trasa. För att skydda ytan bör man lägga på ett lager vax innan användning och därefter regelbundet vid behov.

All kinds of liquids must be wiped down immediately with a clean, dry, soft cotton cloth. To protect the surface a layer of wax should be applied before use and on regular basis after a period of use.
